** THE SUN AWAKENS, NASA IS WARY **

The sun is waking up from a deep slumber, and the next few years
could bring much higher levels of solar activity. NASA is keeping
a wary eye on the sun as officials meet in Washington DC on June
8th to discuss the potential consequences of stormy space weather.
Get the full story from Science@NASA.

** M-V ISLAND - NEW AGREEMENT SIGNED **

On May 27, 2010 an agreement on the lease of the Russian part of
the Saimaa Canal zone to Finland was signed in Lappeenranta,
Finland by the Prime Ministers of the Republic of Finland and the
Russian Federation. The new 50 year agreement supersedes the
initial lease of 1963 which is due to expire in 2013. The new lease
no longer includes Malyj Vysotskij Island, the present R1MV DXCC
entity. The coming into effect of the agreement is subject to
ratification by the parliament of Finland and the Russian duma
later this year. 73 SOURCE: Jarmo J. Jaakola via GOTO List

KB7ME CN71 qrv in VHF Contest
I will be activating Grid CN71, Del Norte County, California, for
the June VHF contest, same as last year. Actually plan to be there
about a week, should be QRV sometime this Friday and leave the
following Thur or Fri. Will have 5 bands, 50,144,222,432 and 1296.
Emphasis on 6m for the FFMA program and those needing this grid on
6, a M2 6m5x and kw amp. Lets hope for some prop. In addition to
SSB and CW, will run WSJT when the bands are slow, especially early
morning and late evenings. On the other bands, will have yagi's
and TE bricks, 1296, 2x 45 ele loopers and 120w. If I have cell

service like last year, will have internet for outside contest
time. Hope to work you. Mike KB7ME, Vancouver, Washington CN85qq

AA4ZZ June VHF QSO Party EME fm EM96
Hi All, The contest team of AA4ZZ will be on again this year from
EM96 with 2 XP20s and a KW with full Azimuth and Elevation. Dates
are June 12th and 13th. We have made some real improvements to the
station and hope it shows in our QSO count. We will try and be
CQ'ing as much as we can on 144.146 Starting at Moon rise and
working as often as we can until Moonset Please check the N0UK
logger and Livecq144.com for updates and frequency changes. Also if
you see us please make it known on the logger. We are only allowed
one station transmitting at a time so we are coordinating closely
with the SSB/CW guys. to get as much time in as we can. We are not
allowed to use the loggers once contest has begun. We will run
short sequences with no 73s. Please continue to call during our
QSOs and spread out as much as you can. 144.1455 to 144.1465 is
fine. All QSLs go to AA4ZZ QRZ address. Thanks and we sincerely
appreciate every QSO. Vy 73, AA4ZZ Team

The VA7ISL contest group will once again head up to the "Perch" in
CN88bv on Southern Vancouver Island. We'll be QRV on 6m through
2304 and on 10GHz. We'll have 100W and long Yagis on the low bands
and a few Watts on microwaves. The primary goal of the operation is
to outscore VE3WCC and get first place multiop in Canada. We are
always looking for more operators, if you're interested, come and
join us! We'll have VE7DAY, DXG, JOX, SLZ and VA7AJK on the hill.
Bunch of really cool guyz. You don't have to bring anything, we
have it all. This time we will actually turn on the903+ gear on
Sunday, so if you're in the Puget Sound area and want to go out
somewhere we'll be looking for you. The access road is still
snowed in, but the torrential rains predicted should wash it away
by contest time. 73, Gabor, VE7DXG

K9AKS qrv DN80 for the VHF Contest
I will operate the June Contest from NE Colorado in DN80.
I have secured a site near Holyoke, out on the HIgh Plains. QRP
portable with 10 watts on 6, 2, 222, 432, and 1296. CW and SSB
only. I hope to be set up by Friday evening to work some 6 meters
with 100 watts; but the power goes back down when the contest
begins. Hope I can give out the grid to some people who need it.
Good luck in the contest to everybody. 73, Curt Roseman k9aks

KU7Z qrv DN50 for the VHF Contest
I will operating next weekend for the contest in DN50ev.
In addition to 6 meters I will have 144, 222, 432 and 1.2 Ghz
available. Look for me Sunday morning on SSB meteor scatter and
WSJT if I haven't blown the laptop up by then. Good Luck to all
and may the E-skip Gods smile down upon us! 73, Mark, Ku7z, DN41af

** LA7VHF 70 MHz BEACON in JP99 qrv **

Hi all, since today the first Norwegian 4m beacon is QRV - LA7VHF in JP99LQ (Callsign: LA7VHF, Locator: JP99LQ (Tromsoe), Frequency: 70,081 MHz, Antenna: 4-ele yagi beaming 190 deg, Power: 10 W output (ca. 40 W ERP), Beacon responsible: Aasmund Birger Jakobsen, LA5TFA Many thanks to Ralf LA5QEA for supplying a commercial TX and PA, and to Dithmar DF7KF for supplying the beacon keyer. The units were integrated and re-tuned to 70 MHz by LA0BY. The beacon is presently operated from the QTH of the beacon keeper LA5TFA. It is planned to collocate the 4m beacon with the 2m beacon LA7VHF and the 6m beacon LA7SIX. Reception reports are very welcome and can be send by email to la5tfa"at"online.no. LA5TFA and LA9AKA will also be QRV very soon on 70 MHz from JP99. 73, Stefan (LA0BY) NRRL Beacon Manager
SOURCE: tnx to Stefan, LA0BY, direct to MMMonVHF

ps - time to check the beacons! at 7th june 2010 the 1st opening towards SV was qrv SV3GKE/B most time alone on the 2m band! In any case you do need infos use: http://www.mmmonvhf.de/bcn.php DL8EBW

** OZ0TX qrv HF and 50 MHz from JO46BG in June 2010 **

Hello friends, I work with 1kw into a 3 ele Yagi@ 7 m agl. QRV in IARU Region I Contest on 50 Mhz. 80 Meter: Dipol, 1KW, 20m: 1KW into GP. Maybe Internet and QRV in ON4KST chat... LATEST NEWS from Andy, DG3XA, dated 2010-06-08: Now i have a OZ Call: OZ0TX in 6 Meter IARU 1 Contest...
SOURCE: tnx to Andy, DG3XA, direct to MMMonVHF

** KL7/KB7Q Gene at Alaska **

KL7/KB7Q Gene will take the 6 meter gear and try some EME from BP40da during his stay at ALASKA, May 15th to August 15th.
LATEST NEWS from Gene, KB7Q, dated 2010-06-05: All is going well here. Six EME contacts on 6m so far, and three 6m opening on Es. The big news is that I worked DU7/PA0HIP on June 3 @ 440 utc, two JA stations were logged just before that. I also worked AC4TO in Florida May 31. More info on my web site: www.geneshea.com
I'll be QRV EME, and scanning for Es opening too.
Best - SOURCE: Gene, KL7/KB7Q, direct to MMMonVHF

** UPDATE: 5J0BV on 6m again **

In case you missed this, Dennis is taking his portable 6m EME system again to San Andres Island (HK0/A) again this week. I think he will be most busy with Es, but if you are interested in an EME sked, contact W1JJ. GL and VY 73, Lance San Andres Isl., HK0. [Update]. I will be on the air from San Andres Island EK92 as 5J0BV during the June VHF Contest running a KW to a 42' boom 8 element 6M8GJ yagi. My primary operating frequency will be 50.106.2 where I will run a constant breakable CQ CW beacon when not hearing any callers. The vast majority of the United States requires a double-hop but with the first hop occurring in open Caribbean water,

signals tend to be good when the band opens. WSJT meteor scatter skeds, unfortunately, are out of the question due to the distance to the United States except for Florida. EME skeds are possible, though. Please contact Mick W1JJ at w1jj@aol.com if you have stn capability for EME and want to sneak a grid in during the night when things are slow. Good luck to all and May The Es Be With Us!
Source: Dennis, K7BV, via Lance, W7GJ via MAGIC BAND EME

** CT6ARL qrv from Castelo de Leira (IN60) **

Hello All! Operators of Radioamadores do Distrito de Leira (ARAL), will be active on 12 June 2010 from Castelo de Leira, WCA: CT-00061, DCFP: C-061, DMHP: LR-001, DMP: 1009. Be plans work as CT6ARL on all bands CW/SSB and VHF. QSL via QRZ.COM. 73 & 11!
de Andrew RN1CW Co-ordinator of WCA (World Castles Award)
SOURCE: Andrew RN1CW via GOLIST

** CanSats are active Friday June 11st on 432 MHz **

On Friday, June 11th, a number of 'CanSats' (satellite in a can, Google "CanSat") will be launched to an altitude of 1000 m (3300 ft) on a military firing area near 't Harde, Netherlands. This is a competition of Delft technical University for pre-university school teams. On board is a 10 mW telemetry transmitter operating on 433.200 MHz. My team has designed a foldable ground plane antenna which should give more range than the antennas used by other teams and we would very much like to prove our max. achievable range calculations. We kindly request the cooperation of as many radio amateurs as possible in a circle of 130 km around 't Harde (JO22) (52.23.36N-05.55.18E) to send reception reports. As the emissions will only last 90 seconds, a procedure to announce the launching has been set up. Please announce your participation beforehand by e-mail to PA0HPV(at)veron.nl for further details. Thanks!
SOURCE: tnx to Henk Vrolijk, PA0HPV, direct to MMMonVHF

** VA2NU qrv 50 MHz from FO60-FO70-FO80-FO90 **

Between June 13th and 20th Vittorio VA2NU will be active as VA2NU from St. Laurence Gulf in FO60-70-80-90 grid squares. He will be qrv with 100 Watt in a Moxon antenna on a Caravan-car.
SOURCE: Mail from Vittorio VA2NU via SixItalia

** Flavio, IW2NEF/IG9, qrv HF & 50 MHz from Lampedusa **

Lampedusa Island ï¿½ AF-019 IW2NEF/IG9 dal 18 al 31 ï¿½ 7 - 2010 , operating holiday style from 6 m to 40 m bands 100w max power
I will participate to RSGB IOTA contest SOURCE: GOLIST 2010-06-06

** FS/K9EL Activity at French St Martin **

John, K9EL will be in French St. Martin (NA-105, DIFO FS-001, WLOTA 0383, Grid Loc. FK88) from 8-17 June 2010 on a family vacation and will be operating whenever possible as FS/homecall. He will be using an IC7000 and verticals for 80-6 metres plus he will try to bring a yagi for 6m. QRV using CW, SSB and RTTY. QSL via home call, bureau cards OK.
SOURCE: K9EL via ICPO Bulletin (03-11 June 2010)

** FJ, ST. BARTHELEMY / FK87 **

Kurt, DL1DA, will be active as FJ/DL1DA from Saint Barthelemy
Island (NA-146, DIFO FJ-001. It also counts for WLOTA LH-0377)
between June 8-20th. Activity will mostly be on 40-6 meters
using CW and RTTY. QSL via his home callsign.
